Dear Bernie,

Thank you so much for your very informative seminar at the NCH Rehab Marketing Meeting. Each and everyone that attended had positive feedback. They felt they learned some very valuable information. One highlight was the importance of incorporating the benefits as well as the features of our clinical programs when speaking to referral sources: We will have a Features & Benefits Workshop at our next meeting. Thank you for getting us started on the right track.

As a new Director of Marketing, I especially appreciated the support from you. I am confident that I can utilize your strategies as I build this team.

Thank you, again.

All the best,

Sue Pillion, RN

Director of Marketing, NCH Healthcare System
Rehabilitation Services
